A brief introduction of R&D activities at IMEC

Dr. Azhar Fakharuddin
Large Area Department

2019-10-10 – 16:00/ D401, Saulėtekio al. 3, Vilnius

➤ Intro

IMEC is a world leading R&D hub in the field of nanotechnologies and digital technologies. The presentation provides insights of the various R&D activities at IMEC and an overview of its organization.

Presenter: Azhar Fakharuddin is a postdoctoral researcher at the Large Area Department at IMEC. His work focuses on light emission from halide perovskites.
